

Live Life to the Fullest!

Outpatient Therapy Helps Older Adults Be Strong, Independent, and Live Life to the Fullest!

Outpatient rehabilitation services including Physical Therapy, Occupational Therapy, and Speech Therapy are available to help patients with a variety of therapeutic solutions.

Physical Therapy works with adults to address lower body strength, walking, balance, and use of assistive devices such as walkers and wheelchairs. Occupational Therapy focuses on upper body strength, fine motor skills, and ability to perform daily self-care activities such as bathing and dressing. Lastly, speech therapy is available to address communication or swallowing disorders.
